Reviews	61

UNIVERSITY OF CEYLON REVIEW

The University of Ceylon was established on the 1st July, 1942, by the fusion of the Ceylon Medical College (founded 1870) and the Ceylon University College (founded 1921). It has at present Faculties of Oriental Studies, Arts, Science, Engineering and Medicine. Its seat is temporarily in Colombo, but it will be moved to Peradeniya, near Kandy, as soon as its new buildings are ready for occupation. The University has taken over from the Government of Ceylon the publication of the *Ceylon Journal of Science*, which has been developed as its chief means of contact with scientists elsewhere and has also started the *Ceylon Journal of Medical Science*. The *University of Ceylon Review* was founded in order to make similar contact with scholars in literary subjects, to provide a medium of publication for the research in those subjects conducted in the University, and to provide a learned review for Ceylon. The Review is published four times a year, in January, April, July and October. Exchanges are welcome. Correspondence regarding exchanges should be addressed to The Librarian, University of Ceylon. The annual subscription is Rs. 5.00, and a single copy Rs. 2.00.
